

## DIRECTOR'S NOTES

*The Wizard of Oz* was written by L. Frank Baum in 1899. At the time this story was a huge innovation in story telling for children. Baum wrote in 1900, "*The Wonderful Wizard of Oz* was written solely to pleasure children of today. It aspires to being a modernized fairy tale..." In 1939, when the movie version was made, the story was "modernized" for children of that era by Hollywood. That version is ingrained in our memories. Fast forward to 2017 and we find ourselves in a new era, eager to tell a story that has survived over 100 years. We have chosen to present a production that honors the vision of the 1939 movie but also addresses a new generation of viewers. Our production uses the foundation of the 1899 book and the 1939 movie, and then adds visual references, such as video game characters, from our modern day. We have sought to balance an experience that is recognizable to the movie but also takes creative steps to "modernize" the story for this era.

Our goal is to carry the message of the story to a new generation. The message is we all have skills and talents that we may not know we have. With encouragement we can identify those gifts and bring them to enrich our own lives and the world around us. In the same way, we may not appreciate all the good things about where we live and the people we know. It is always good to take a moment to give thanks for the blessings bestowed upon us. Those messages come through as loud and clear in this 2017 production as in the book of 1899 and the movie of 1939.

~ Craig Schieber, Director

## BIG TREE TRAIL

One of the delights of the Mountaineers' Kitsap Forest Theater is being surrounded by the Mountaineers Foundation Rhododendron Preserve – a 460 acre nature conservancy with over 70 acres of old-growth forest. Ancient western red cedars abound with many other trees, ferns and wildlife. One of the biggest trees on the Kitsap Peninsula is located on the preserve.

The trail to 'Big Tree' is about 1/2 mile long and starts near the historic Kitsap Cabin, ending at one of the 10 largest Douglas Fir trees in the world (2<sup>nd</sup> largest in Kitsap County). The tree itself is over 30' in diameter. The hike takes you on a bridge over Wildcat Creek with views of Hidden Valley, blooming trillium, wild rhododendrons and many other native trees and plants. You truly feel as if you have entered another world.

If you hike the trail after the show, please be sure your car is not blocking anyone in. Please note that the first part of the trail is steep – wear walking shoes and enjoy your trek into another time and place!

## COME BACK THIS SUMMER • BRING THE WHOLE FAMILY!

July 29-30, Aug 5-6, 12-13, 19-20  
Saturday & Sunday • 2:00 pm

Based on Disney's animated musical adventure and Edgar Rice Burroughs' Tarzan of the Apes, *Tarzan* features heart-pumping music by rock legend, Phil Collins. High-flying excitement and hits, like the Academy Award winning "You'll Be in My Heart," as well as "Stranger Like Me" and "Two Worlds," make *Tarzan* an unforgettable theatrical experience, perfectly set in our unique theater. As Tarzan grows up, he finds his animal upbringing clashing with his human instincts and ultimately must choose to which world he truly belongs. All ages will delight in this epic story.

## IN MEMORIAM

Justin McBride

June 2, 1977 – January 5, 2017

We dedicate this season to the memory of Justin McBride. He tragically died in a tree felling accident while volunteering here at the Kitsap Forest Theater. The beauty and peacefulness of this forest is an enduring reminder of Justin's kindness and love of nature.

## MOUNTAINEERS PLAYERS HISTORY

The rich history of The Mountaineers Players and the Kitsap Forest Theater began on a Spring day in 1909. A 'local walk' to view the wild blooming rhododendrons around Wildcat Lake began one of The Mountaineers most enduring traditions. The 'misguided' group of 66 Mountaineers wandered into Hidden Valley Ranch and met Edward Paschall and his family. A fast friendship was forged on that day.

A prominent activity among early Mountaineers visitors involved dramatic diversions like skits. The first theatrical effort was a pantomime staging of the *Legend of Sleepy Hollow* in 1916. The headless horseman rode on a bright, moonlit Halloween night. The performances grew into a production of *Robin of Sherwood* on June 17, 1923.

The audience moved from clearing to clearing as different scenes were presented. The performance marked the birth of The Mountaineers Players who have produced an annual spring show every year to the present day – excepting four years during World War II. The increasing size of the audience and the relatively uncomfortable accommodations spurred the movement to build a permanent theater facility.

William C. Darling and friends scouted the site of the present day Kitsap Forest Theater. The Mountaineers felled trees, carved terraced seats in the hillside and lugged cedar bark from the creek bottom. The original design attempted to recreate a naturally occurring glade in the forest. Trees were thinned to allow streams of light to fall on the stage while keeping the audience shaded. Wings were constructed out of cedar bark covered with moss. A lush row of fern footlights and rhododendrons and dogwoods filling the back drop are a few of the natural wonders of this space.
